## 2009 Portrait Price List

We take great pride in the portraits that we create. We combine our photographic talents, years of experience, along with your personality and ours, to create images that capture your life style and or fantasy.

### Consultations:

It is recommended that you meet with us prior to your photo session so we can learn more about your personality, where you work and play, your desires or fantasies. This will help us to decide the type of portrait session that will enable us to do the absolute best job for you and capture the images you desire.

### Sitting Fees:

This professional fee covers the actual photography of your portraits and includes the time, talent and materials used. It is not a deposit and does not apply to the resulting order. This fee is paid at the time of your photo session. High quality proofs are produced to assist you in selecting your favorite poses. It is expressly understood and agreed that the loan of proofs conveys no creator's rights or right to copyright, they are the property of **PHOTOSENSE INC.** & are the copyright of Dave Robinet.

### Wall Portraits:

All of our images are hand printed in one of our custom labs. The final images are hand retouched and finished with a protective lamination producing a handsome finish that will help protect your prints from fading. All of our black and white images are hand printed using only the finest of papers and chemistry. Wall prints are either mounted on a permanent backing board, or mounted on stretcher frames and canvas and are ready for framing.
